# VeMatics

Pay Station CP460

for a new laundry experience

Also works with our mobile TikWash app

Elevate your laundry business with CP460
Where innovation meets efficiency, for you and your customers.

CP460: YOUR ULTIMATE LAUNDRY PARTNER

The CP460, a revolutionary addition to our line-up, offers a dynamic and modular system that flexes to your needs. With a streamlined touchscreen interface and multi-language support, your customers enjoy a pleasant experience.
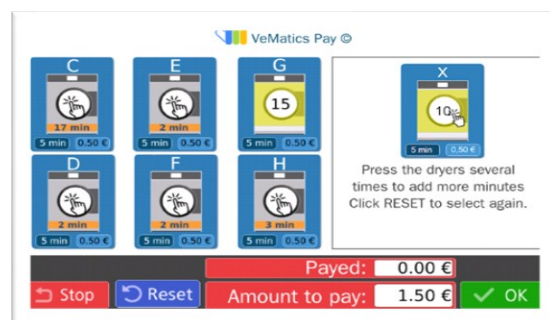

Empowering Your Laundry Business:

- **Remote management**
  Manage your laundry operation from anywhere. Start and block machines from a distance and provide cash refunds to customers in case of a laundry machine problem. Stay in the know with daily sales reports and a web portal that consolidates data from all your PayStations. Receive real-time alarms through email.
- **Payment Systems:**
  Our versatile payment systems simplify the process. The standard coin tube changer can be upgraded to a smartcoin system where all coins are collected and managed by the PayStation. Optional features, like a noterecycler and a bank terminal, enhance your service offerings. Additionally, payment with the **TikWash** mobile app is included.
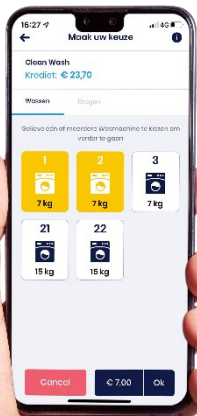

Customer Experience:

- **User-Friendly Interface:** Your customers enjoy easy-to-manage system that allows them to start multiple machines at once and make payments with cash or bank card.
- **TikWash Mobile App:** For added convenience, customers can use our unique mobile application to start machines. It provides transparency and real-time occupancy notifications. A reservation system can be added for all or some machines.
- **Smart Stock System:** Our system returns change efficiently with the smart stock system, which automatically reuse all coins and returns them according to your distribution preferences.

TIKWASH MOBILE APP

With our innovative mobile application, customers can top up money using a virtual wallet and spend it in any of your laundries.
The **VeMatics** PayStation and the **TikWash** app work together flawlessly. Machine availability is synchronized. **TikWash** can eliminate the need for a payment terminal. Your customers no longer require the terminal to start the machines; they can do it directly from their smartphones. This feature comes standard with the CP460 and is also available across all our payment systems. It can even function as a standalone version, making it the ideal choice for smaller private installations, student housing, or machine rental.

The processing is fully encrypted and secured with the latest technology, fully trackable through your portal.

TikWash - making laundry a breeze, no matter where you are.
